

## Communications Committee

### Purpose:

Provides recommendations to the Board on communications policy and needs. The committee ensures that Management is engaged in all communications needs and activities and works with Management on new opportunities and challenges.

### Responsibilities:

#### Cable TV

Review and management of the cable TV contract under Comcast including contract discussions, troubleshooting and ongoing review of new technology or opportunities for better cable TV packages. Periodic reviews of what cable TV options are available to 9400 in Ocean City. Owners will be kept apprised of any changes in cable TV offerings.

#### WIFI

Ensuring that the 9400 building wide WIFI system is installed, maintained and operational including management of WIFI provider and oversight of contract. Ensuring owners receive emergency technical support when necessary. As technology evolves monitoring and proposing system improvements as needed.

#### Website

Development and maintenance of the official 9400 website. Oversees management and contract of our website provider including changes and upgrades. Proprietary information will be housed in a separate password protected owners section separate from public view information. Ensuring website information is current and remove outdated information.
